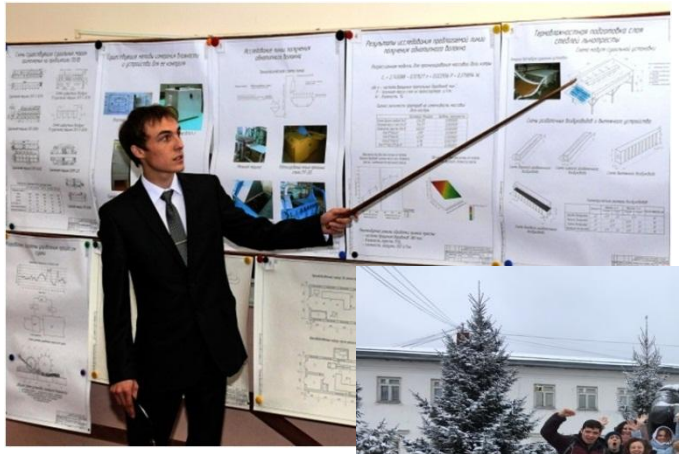
Library

One of the most important tasks of our library is the preservation of the scientific heritage of University members. The library includes more than 1 million books.

Activities

- Our students are engaged in research work as well as in cultural events.
- The students take an active part in various scientific conferences, they present their research projects, and they are involved in sports life of the University. At city events they worthily represent the University.



We have a wonderful holiday in our University: “Students’ Spring Festival”. Each year the students are waiting for this event.
